

EDUCATION

COLLEGE EDUCATION -Sri Eshwar College of engineering	7.5(Vth-sem)	2023-2027
DIPLOMA(CSE)-- NACHIMUTHU Polytechnic College	91.2%	2021-2023
SCHOOLING-- Bharatiya Vidya Mandir Matric Higher Secondary School	PASS	2020-2021

INTERNSHIP EXPERIENCES

MERN Stack Intern – Rampex:

Acquired practical experience with MongoDB, Express.js, React.js, and Node.js, enabling the development of full-stack web applications using the MERN stack. Collaborated on real-world projects, strengthened RESTful API integration skills, and followed best practices in code structure, debugging, and version control using Git.

Java Spring Boot Intern – Rampex:

Gained scalable backend services using Spring Boot, REST APIs, MySQL & JPA, with API testing via Postman and Git-based version control.

SKILLS ACQUIRED:

Frontend: React.js | HTML | CSS | JavaScript | Responsive UI Development

Backend: Node.js | Express.js | REST API Development | API Integration

Database: MongoDB | MySQL

Development Concepts: State Management | Full-Stack Development | CRUD Operations | Client-Server Architecture | Cross-Platform Application Development

Tools & Practices: Git | GitHub | Postman | Debugging | Code Optimization | Version Control | Agile Development

PROJECTS

PantryPal – Smart Inventory & Expiry Tracker System [Github](#)

December 2025

Tech Stack: React , Node.js, MongoDB, JWT Authentication, n8n

Built a MERN-based inventory system with barcode input and OCR expiry detection, featuring low-stock & expiry alerts, shortage prediction, smart shopping lists, recipe suggestions, and analytics dashboards.

Fin Track - Personal Finance Tracker [Github](#)

Apr 2025

Tech Stack: React , Node.js, MongoDB, JWT Authentication

Developed a MERN finance dashboard to track income/expenses/savings with reports, data visualization, and secure authentication for better financial planning.

SystemSketch AI – AI-Powered System Design Generator [Github](#)

December 2025

Tech Stack: Streamlit, Python, Groq API, Llama 3.1 (8B Instant), Graphviz, JSON

Developed an AI-powered System Design Explainer using Groq Llama 3.1 (8B Instant) that converts natural language requirements into detailed system architectures, component breakdowns, and scalable design recommendations.

CERTIFICATIONS

React.js – Frontend Development & State Management	2025
MongoDB – Database Design & CRUD Operations	2025
Networking Basics – Computer Networks Fundamentals	2025
Java Programming – Object-Oriented Development	2025

TECHNICAL SKILLS

Programming Languages: Java | JavaScript | Python

Frameworks & Libraries: ReactJS | React Native | Node.js | Express.js | NestJS | Tailwind CSS | Redux | Streamlit

Databases: MongoDB | MySQL

Tools & Platforms: Git | GitHub | Postman | Docker | GitHub Actions (CI/CD) | AWS | Vercel | Android Studio | VS Code | n8n |

Messaging & Architecture: REST APIs | Microservices

Core Concepts: Full-Stack Development | OOPS | DBMS | CN

CODING PROFILES

Leetcode- Global Rank: 1,147,454 | Problems Solved : 139 | Profile Link: [LINK](#)
