INTERNSHIPS

GZOFT TECH SOLUTIONS – Full Stack Developer Intern	Jan 2025 – Feb 2025
---	----------------------------

During my internship I have gained hands on experience in MERN stack development including **Mongodb,Node.js**

Express JS ,React with integrated projects .This project allowed me to enhance the skills in Web Development and Api integration and working with modern JavaScript frameworks .

INTERNPE – Mern Stack Intern	Oct 2024
-------------------------------------	-----------------

Developed and deployed MERN applications with RESTful APIs, JWT-based role authentication, state management using React Hooks/Context API, and efficient CRUD operations.

PROJECTS

GEMINI AI CLONE: Built a Gemini Ai Clone of my own , it's a completely similar to the Gemini ai working and the ui design ,I have built that with the react and for the ai I have used the Api from the google official site and I have built with clean efficient Gemini ai clone and I have added a authorization for that using JWT token ...

Tech Stack: React JS , Bootstrap , Tailwind , JavaScript

PIPELINEX :Built a integrated of machine learning with full stack to show case my full stack skills . It is an machine learning pipeline to build a model from dataset and find the accuracy of the model from the Dataset ,it will help to keep track of the dataset training for the ml developers it gives a handson works as a manual dataset preprocessing, training and model development .
